Indemnifications and Warranties

We often agree to indemnify our clients against damages and costs resulting from claims of patent, copyright, trademark infringement or breaches of confidentiality associated with use of our software through software licensing agreements. Historically, we have not made any payments under such indemnifications, but continue to monitor the conditions that are subject to the indemnifications to identify whether a loss has occurred that is both probable and estimable that would require recognition. In addition, we warrant to clients that our software operates substantially in accordance with the software specifications. Historically, no costs have been incurred related to software warranties and none are expected in the future, and as such, no accruals for warranty costs have been made.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements other than interest rate swaps.

Item 7A. Quantitative and Qualitative Disclosure about Market Risk

In the normal course of business, we are routinely subject to a variety of risks, as described in Item 1A. *Risk Factors* of Part I of this Report and in our other filings with the SEC.

The risks related to our business also include certain market risks that may affect our debt and other financial instruments. At present, we face the market risks primarily associated with interest rate movements on our outstanding debt.
